30 June 1960

MEMORANDUM FOR: Deputy Director (Intelligence)
Deputy Director (Plans)
Assistant Director for Basic Intelligence
Assistant Director for Current Intelligence
Assistant Director for Central Reference
Assistant Director for Research and Reports
Assistant Director for Scientific Intelligence

SUBJECT: Foreign Documents Division Reports

1. As the result of successive reductions in manpower and budget, the Foreign Documents Division, OD has undertaken an exhaustive review of its present method of operation and reporting program, with a view toward determining whether some other method or program, less demanding on FDD manpower and funds, might effectively meet the needs of the intelligence community for information from foreign language publications.

2. As the result of such review, FDD proposes for discussion a gradual revamping of its reporting system so as to conform with the following broad lines:

a. Significant current information. Press and publications will be rapidly scanned upon receipt and items dealing primarily with Sino-Soviet bloc activities will be reported in a new FDD publication entitled Foreign Press Bulletin to be issued daily. This is in response to numerous requests for more rapid handling and reporting against current requirements.

b. Continuous detailed reporting. In those cases where this type of reporting is required by the nature of the information or the over-riding need of the consumer, e.g., biographic information, press summaries, review or translation of a particular journal, this work will for the most part be contracted out to [] and the products will appear as [] publications. This part will be a continuation of the present method.

CONFIDENTIAL**SUBJECT: Foreign Documents Division Reports**

c. Collated reports. All other types of information will be indexed within FDD by reference to the foreign language material. Such information will then be assembled as rapidly as needed upon specific request of USIB members, or on the initiative of FDD, in consultation with appropriate offices, when the character or volume of information on a subject of intelligence interest promises a worthwhile report. These reports will be issued as FDD publications with individual titles and disseminated to users having a substantive interest and to the CIA Library. As such they can be readily indexed and will answer a very important recurring need, the need for retrievability, which is not possible with the current reporting system.

3. The Foreign Press Bulletin was initiated on 9 June 1960.

25X1A TAB A lists those reports of a continuing nature which are currently planned for [] handling. TAB B lists those FDD reports which would be phased out. An orderly and coordinated phasing is intended in order that there may be no disruption of service on outstanding requirements. TAB C lists those FDD reports which would be continued. TAB D is a preliminary listing of collated reports planned and in process within FDD at this time. If this plan is implemented, it is expected that a sufficient number of these new reports will have appeared by September to permit the members of the CIA Panel on Exploitation of Foreign Language Publications to assemble comments for that month's meeting. Meanwhile, ad hoc specific requests from any office for assembly of information from foreign language publications on a given topic would be entertained at any time by FDD.

25X1A 4. If there are any questions which you or your staff have on this proposal, [] Chief, FDD, and I will be very glad to discuss them with you.

25X1A []
Assistant Director for Operations
